7. SUSTAINABLE WALL PANELING DESIGNS

(Image credit: The Residency Bureau)

With many homeowners looking to improve their existing space with sustainability in mind, color and pattern enthusiast Amy Vroom of [The Residency Bureau](#) created textured wall panels from recycled wood tiles. 'For this Seattle basement, I wanted to add depth and texture to give an otherwise long room, dimension. By using recycled wood tiles at one end of the space, it created a focal point for the room and warmed up the cozy TV and reading area.'
